#### Comments

Mike was amazing! He was always very accesible, which was super helpful as I always had a lot of questions. He took time to arrange extra office hours for psets, as well as additional review materials. He always took time to explain different topics and ask if we had any questions. Section could've been a bit more engaging; it usually felt like attending a third lecture instead of having discussion, but I think that was just how the course was set up. Otherwise, I had a great time and Mike was an excellent teacher.

Michael is an absolute delight and I wouldn't have wanted anyone else as my TF this semester. I found his stories the most engaging part of section, and they helped to bring me back when I felt I was losing focus. I will say he does tend to overexplain and run over time, which is the main flaw with his sections.

Michael is the ideal section leader, and might even be the best section leader I've had at Harvard. He goes above and beyond for his students by setting aside time for extra help and goes very in depth for all of his explanations to make sure you really understand the material. He is so understanding and easy to talk to, and I couldn't ask for a better TF than him!

Goes out of his way to help students and ensure that they are doing well in the course.

Mike was very committed to teaching. For instance, I really appreciated the supplemental emails he sent all the time with more indepth explanations of the material. Very committed teacher who was always happy to teach and help.

best TF I've had for an ec class, made me feel very comfortable asking what I thought were sometimes dumb questions

Mike was such a great TF to have for this course, particularly in the online setting because he was always approachable and quick to answer. My one issue sometimes was that it would take him very very long to explain one thing and office hours would be full of people with different questions on the pset. I know Mike meant well and we all should be interested in knowing the whole background info of the topics we are covering, but with a pset this hard and with over 70 questions, many of us just wanted to get to the point and let the next person ask. Other than that though I really loved having Mike as a point person in this course and really appreciated his time in giving us feedback. Also he's just such a nice guy and is someone I hope to have again in a class.

Mike was one of the most passionate section leaders I have ever had. I have never had a section leader that went so much out-of his way to make the lives of his students easier. He put so much effort into teaching us and I really appreciate it.

One of the best TFs I have ever had. He deserves a raise
